Soft Skills: Problem Solving, Teamwork, Fast Learning, Communication, Flexibility, Curiosity

PROFESSIONAL EXPERIENCE

BACKEND & MOBILE FRONTEND DEVELOPER – HEALTHLINK (MEDICAL PROCUREMENT & EQUIPMENT PLATFORM)

JAN 2025 – JUN 2025 | LARAVEL, MYSQL, FLUTTER, RESTFUL APIS, REACT

- Developed backend services and APIs in Laravel to power web and mobile platforms for healthcare procurement in Algeria.
- Built mobile app frontend in Flutter, ensuring intuitive UI for users with varying digital literacy levels.
- Integrated pharmacy inventory management, supplier ratings, and digital sales tools.
- Collaborated with teammate on React frontend, ensuring API compatibility.
- Delivered features iteratively within Agile Scrum framework, including sprint planning and stand-ups.
- [GitHub Backend](#)

FULL STACK DEVELOPER – CAREER BRIDGE (INTERNSHIP MANAGEMENT SYSTEM)

FEB 2023 – MAY 2023 | LARAVEL, LARAVEL BLADE, HTML, BOOTSTRAP, MYSQL

- Designed and developed a complete internship management platform for students, supervisors, and administrators, reducing manual processing time by 40%.
- Implemented backend logic with Laravel for student registration, internship listings, and approval workflows.
- Developed role-based access control for three distinct user types.
- Built responsive and user-friendly frontend interfaces, ensuring seamless experience across devices.
- [GitHub Repository](#)

JAVA DEVELOPER – PRIVATE SCHOOL MANAGEMENT DESKTOP APPLICATION

JUL 2023 – AUG 2023 | JAVA FX, MYSQL

- Initiated a custom desktop application for administrative tasks including student records, attendance, and teacher scheduling.
- Designed UI using JavaFX and implemented CRUD operations with MySQL.
- [GitHub Repository](#)

EDUCATION

Master's Degree – Information and Communication Systems and Technologies (STIC)

University of Constantine 2

Bachelor's Degree – Information Technology (LMD System)

University of Constantine 2

KEY ACHIEVEMENTS

- Built 3+ full-stack applications , including mobile and web platforms.
 - Integrated secure role-based access control and optimized API performance for production use.
 - Delivered responsive designs with high user satisfaction feedback.
-
