SUMMARY

Backend-focused full-stack developer with 3+ years of experience specializing in Laravel, PHP, and MySQL. Skilled in building scalable and secure web applications, with strong expertise in developing RESTful APIs for web and mobile integration. I also have experience in mobile development using Flutter, and on the frontend, I work with Laravel Blade (HTML, Bootstrap) and React.

I also built several small-scale applications using React, Node.js, and Vue.js to expand my full-stack capabilities. Passionate about clean, maintainable code and continuous learning through hands-on development and collaboration.

WORK EXPERIENCE & PROJECTS

HealthLink – Medical Procurement & Equipment Platform

Jan 2025 - Jun 2025

- Role: Backend & Mobile Frontend Developer
- Technologies: Laravel, MySQL, Flutter, RESTful APIs
- Developed a cross-platform platform to streamline medical procurement and equipment distribution for healthcare professionals in Algeria.
- Implemented the backend using Laravel, designing and developing RESTful APIs to support both web and mobile applications.
- Built the mobile application frontend using Flutter, with a focus on intuitive and responsive UI tailored for users with varying digital literacy levels.
- Collaborated with a teammate on the web frontend (React) by coordinating API integration and ensuring backend compatibility.
- Worked within an Agile Scrum framework, participating in sprint planning and regular stand-ups to deliver iterative improvements.
- Supported features like pharmacy inventory destocking, supplier/product ratings, and digital sales tools—enhancing efficiency, transparency, and access in the healthcare supply chain.

Career Bridge – Internship Management System

Feb 2023 - May 2023

- Role: Full Stack Developer
- Technologies: Laravel, Laravel Blade, HTML, Bootstrap, MySQL
- Designed and developed a complete internship management system for students, supervisors, and administrators.
- Implemented backend functionality using Laravel, including student registration, internship listings, and approval workflows.
- Built responsive and user-friendly frontend interfaces using Laravel Blade templates, HTML, and Bootstrap.
- Integrated role-based access control to manage different user types and their permissions.
- Ensured a smooth and intuitive user experience for all stakeholders in the system.

[github Link](#)

- Role: Full-Stack Developer
- Technologies: Laravel, Flutter, PostgreSQL, Laravel Reverb (WebSockets)
- Built a full-stack real-time chat application with a Laravel REST API backend and a Flutter mobile client.
- Designed the authentication system using Laravel Sanctum, supporting email/password and Google Sign-In.
- Modeled the database schema for conversations, messages, friendships, and group roles.
- Implemented private and group messaging with text, image, and voice attachments.
- Integrated Laravel Reverb to enable real-time message delivery over WebSockets.
- Project is actively maintained, with ongoing feature development.

EDUCATION

Master's Degree in Information and Communication Systems and Technologies (STIC)

- University Of Constantine 2

Bachelor's Degree in Information Technology (LMD System)

- University Of Constantine 2

KEY SOFT SKILLS

Self-motivated & Fast Learner: Adapt quickly to new tools, frameworks, and technologies.

Team Player: Experienced in collaborating on group projects and contributing to shared goals

Analytical Thinker: Able to troubleshoot efficiently and deliver clean, optimized solutions

TECHNICAL SKILLS

- Languages & Frameworks: Laravel, Flutter, Java (JavaFX), HTML, CSS, TypeScript
- Frontend Tools: Laravel Blade, Bootstrap, Flutter, React
- Databases: MySQL, PostgreSQL
- APIs: RESTful API development and integration
- Tools & Version Control: Git, GitHub, Docker
- Collaboration: Worked with peers on full-stack applications and UI/API integration, following Agile Scrum methodology with sprint planning and regular stand-ups.

SKILLS

Laravel (PHP), Laravel Filament, Laravel Reverb, Laravel Sanctum, Flutter (Dart),
Firebase, Java(JavaFX), Python, PyQt6, Node.js, Express, Vue.js, TypeScript,
HTML5, CSS3, JavaScript, React, Bootstrap, Laravel Blade, Tailwind CSS, MySQL, PostgreSQL,
MongoDB, Redis, RESTful APIs, Git, GitHub, VS Code, PhpStorm, Docker, IntelliJ IDEA, Android Studio,
Postman, XAMPP, Eloquent ORM, Object-Oriented Programming (OOP), MVC Architecture, Agile Scrum,
Team Work, Fast Learner, Work Under Pressure, Problem Solving, Communication, Flexibility, Self-
motivated, Productive, Curiosity
